

ZELIA POD

A COMPLETE AND COMPACT MEASURING CUP

AN EFFICIENT INSTALLATION

With the Zelia Pod measuring cup, all the essential elements are in one place: flow sensor, measurement probes or even product injectors.

EASY TO INSTALL

With Zelia Pod, reduce the number of holes in the pipe by integrating all the essential water treatment elements into one point on the pipe.

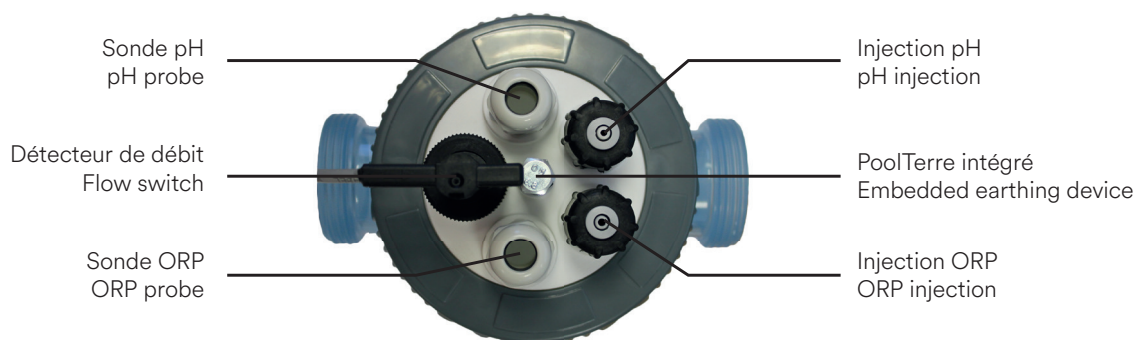

MORE RELIABLE MEASUREMENT

The Zelia Pod incorporates an internal measurement chamber separate from the injection for more reliable measurement and a flow sensor

- ✓ Ultra-compact injection and measuring cup
- ✓ For a quick installation of water treatment equipments
- ✓ Allows to reduce drilling work in the pipes (probes, injectors, etc.)
- ✓ Reliability of measurement thanks to a separation inside the ZeliaPod
- ✓ Transparent equipment to check at one sight the water

CENTRALISING INFORMATION WITH THE ZELIA POD

MORE THAN AN ACCESSORY, A COMPLETE TOOL FOR WATER TREATMENT

- ✓ Appareils / systèmes compatibles :
Compatibles systems / devices :
- ✓ Electrolyseur + régulation pH
Salt chlorinator + pH regulation
- ✓ Electrolyseur + analyse ORP
Salt chlorinator + ORP analyser
- ✓ Traitement UV + dosage pH / ORP
UV treatment + pH / ORP dosing
- ✓ Appareil de régulation pH / ORP
pH / ORP regulation device
